Datasets were too big, but I'm attaching the links to the datasets:

1. Link for the dataset from my google disc (I delated parts of the original file manually since it was not well enough adapted to parsing, it was easier to remove some unimportant parts by hand first)
In case of any trouble with accession please let me know.

https://drive.google.com/file/d/16kHgBvD2NxehK7vzZU32YBTxTMOaxgoC/view?usp=sharing

original data:

https://ftp.ncbi.nlm.nih.gov/geo/series/GSE25nnn/GSE25066/matrix/

2. Gene annotation data (not really needed)
